Sub: Delegation of Financial Powers

The question of delegation of financial powers to the key position holders in the organization for performing their regular responsibilities and duties envisaged under the compliance acts of Tula's Institute has been under my consideration for quite some time. After suitable recommendations from the Board of Trustees it has been decided to delegate the financial powers keeping following broad principles in view:

- 1- Delegation of power should foster faster decision making.
- 2- It should ensure effective implementation of projects and avoid time and cost overrun.
- 3- Higher level of authorities should focus on important Institute development issues and projects not routine financial matters.
- 4- Delegation should enable this organization to function at par big commercial organizations.
- 5- Delegation will enhance better accountability mechanism in key work areas for a robust budgeting exercise and approval mechanism.

The delegated budget shall majorly cover the following aspects

- a. Contingency funds
- b. Expenditure and re-appropriation
- c. Power to sanction works and its execution
- d. Procurement of goods and services
- e. Purchase of goods
- f. Contingent and miscellaneous expenditure
